Permissible Purpose or Legal Ownership Requirement:

- Services are available only when a permissible purpose is demonstrated, or legal ownership of the device is confirmed.

Device Compatibility:

- Access to some devices may not be possible depending on the make, model, or operating system version

Processing Time:

- The bypass process may require retaining the device for 7 to 10 days in many cases, though not all.

Fees and Retainer:

- **Successful Access:** \$5,000 if access to the device or data is achieved.
- **Unsuccessful Access:** \$1,500 if access is not achieved.
- **Retainer:** A \$5,000 retainer is required at the time of assignment.

Please note: We do not acquire, discover or unlock passwords on devices. Our services bypass passwords to access, obtain and retrieve data from locked devices only. Bypass or data acquisition is not guaranteed. Data analysis or forensics, if requested, costs an additional \$350 per hour.
